

CALIFORNIA ENERGY COMMISSION

ROBERT A. LAURIE
COMMISSIONER

November 22, 1999

Mr. Thomas P. Hallenbeck
District Director
District 9
Department of Transportation
500 S. Main Street
Bishop, CA 93514

Re: State Route 127 Road and Accident Information

Dear Mr. Hallenbeck:

Thank you for your letter of November 2, 1999, and the information it contained on road, traffic and safety conditions of California Route 127. This information will be very helpful in deliberations with the federal U. S. Department of Energy on the reasonableness of their proposal to reroute federal low-level nuclear waste shipments from eastern states through California to the Nevada Test Site.

Please convey my appreciation to your staff for their efforts in providing this information.

Sincerely,

A handwritten signature in cursive script, reading "Robert A. Laurie".

ROBERT A. LAURIE
Commissioner
